10.14 Sprayers & Containers
10.15 Spill Control
Buster
Rust Penetrant
A superior blend of lubricants, solvents and moisture displacing oil. Foaming action provides extended penetration and moisture displacement. The light foam of this product allows for “creeping” in any direction.

Features
- Outstanding penetrant that loosens the toughest rust.
- Contains oily lubricants to assist in removal of threads.
- Penetrants creep between mating parts for faster, safer loosening.
- Foaming action minimizes run off and keeps more product working on the rusted part.
- Ordinary penetrating oils evaporate from heat as nut or bolt is backed off.
- Leaves a coating of moly to help eliminate breakage.

Safety Solvent IV
A residue free, fast drying, high power spray that dissolves grease and rinses away dirt and grime without injury to working parts. Features a 36,200 volt dielectric strength. Authorized by the USDA for use in Federally inspected meat and poultry plants.

Features
- Non-flammable, non-conductive.
- Can spray on electrical motors even while they are running.

Applications
- Diesel Engines
- Marine Equipment
- Aircraft Parts
- Industrial Equipment
- Heating & Air Conditioning Equipment
- Refrigeration Equipment
- Generators
- Motors
- Windings
- Power Tools
- Food Processing Equipment

Brake Cleaner NC
Non-Chlorinated
Brake Cleaner NC is a powerful, non-chlorinated solvent blend, formulated to dry quickly. This technologically advanced formula safely and efficiently cleans all brake parts and is also an excellent cleaner for metal parts. The high pressure delivery system allows for thorough cleaning of all brake surface parts. Dissolves grease, oils, tar, asphalt, resins, brake fluid, and many other soils. Does not contain chlorinated solvents that can contaminate waste oil. Does not contain 1,1,1 Trichloroethane. Does not contain Perchloroethylene.

Features
- Powerful solvent.
- Instantly degreases.
- Dissolves oils and contaminants.
- Leaves no residue

Applications
Instantly degreases and leaves no residue on brake linings, drums, springs, cylinders, disc brake pads, CV joints, etc.

Tech Blast
Contact Cleaner Will Not Affect Plastic
Ideal for removing dirt and grease from delicate or sensitive electronic equipment. It will clean oil, grease, condensation and moisture from circuit boards, precision instruments, oxygen equipment, controls, switches, motors and film. NOTE: Not for use on styrene or polystyrene.

Features
- Safe for use on Neoprene W, Silicone Rubber, Natural Rubber, Hypalon 40, Adiprene L, Delrin Resin, Polyethylene, Nylon, Teflon, Buna N, Butyl, Thokol FA, Buna S, Viton A, Nordel, Zytel, PVC.
- Non-flammable.

10.1 PENETRANTS & INDUSTRIAL CLEANERS

**Citra-Lift**
Heavy Duty Industrial Foam Cleaner & Degreaser
A unique aerosol foam which enables simple and easy cleanup of tools, parts, workbenches, vent covers, machinery, coils, industrial equipment, concrete and more! Sprays as an engulfing, heavy-duty foam that clings to surfaces and provides extended cleaning contact time. Contains super-powerful, water-soluble, grease-dissolving agents and detergents for instant mega-forceful cleaning action. Provides a self-indicating cleaning action foam which quickly breaks down grease and grime and becomes dirty, indicating soil is ready to be flushed clean. Deodorizes as it cleans, leaving the area with a fresh citrus aroma.

**Features**
- Fresh citrus aroma.
- Powerful “foam gun” spray.
- Ultra fast, super powerful grease dissolving action.
- Environmentally friendly, biodegradable.

**Applications**
Dirty engines, greasy oily machinery, tools, lawn equipment, construction equipment, road equipment, driveways and parking lots, industrial equipment, air conditioning coils, exhaust vents and more.

---

**Solve-Prep**
Solvent Cleaner, Degreaser and Surface Prep
Ideal for all heavy duty cleaning and degreasing applications including motors, bearings, machinery, tools, industrial equipment, engine components, chains, cables and much more. Additionally, it is excellent for use in surface preparation prior to painting or applying adhesive products.

**Features**
- Instantly removes grease, grime and tar.
- Powerful spray blasts surfaces clean.
- Plastic safe and non-corrosive.
- Leaves no residue.

---

**Peel It**
Non-Chlorinated Electrical Safety Cleaner
Peel It is a non-corrosive, non-conducting cleaner degreaser that improves electrical performance and increases equipment life.

**NOTE:** Product may harm some plastics. Test before using. Do not use on sensitive electronic equipment, computers, Disc Players, etc. Not recommended for use on energized equipment.

**Features**
- Heavy duty degreaser.
- Non-chlorinated.
- Non-corrosive.
- Non-conducting.

**Applications**
- Automotive interiors.
- Colorfast carpets.
- Most fabrics.
- Painted surfaces.
- Metal parts.
- Electric motors and equipment.

---

**4 Way Plus**
Moisture Displacer
Features
- Dries wet ignitions for fast starting of wet engines.
- Dries electrical systems, generators, alternators and starters.
- Provides moisture barrier - excellent for all electrical equipment.
- Frees rusted parts – keeps them free with rust protection.
- Stops squeaks – provides permanent protection against metal-to-metal wear.
- Non-flammable – safe to use.
- Meets gov’t specifications MIL-C-16173D, MIL-C-23411A, and VV-L-800A.
- Special propellant extends usage to cold weather temperatures.

---

### Pro-Tect Battery Cleaner & Protector

**Features**
- Improved Color Indicator—detects corrosion.
- Low Odor—non-flammable water soluble formula.
- Contains Special Cleaners—attacks and destroys corrosion and protects after cleaning.
- Extends Battery Life—seals air and dirt out to protect battery against corrosion buildup and battery voltage leakage.
- Works Quickly—one product both cleans and protects.
- No mess application.
- Not necessary to remove battery.
- Authorized by USDA.

### Battery Wash

**Battery Terminal Cleaner with Color Indicator**

Removes corrosion from all battery parts and quickly identifies leaks with a color change.

**Features**
- Color indicator shows red in presence of acid. When neutralizing, color indicator shows yellow.
- Regular use increases battery performance and life expectancy.
- Neutralizes acid and dissolves corrosion from terminal cables, holddowns and boxes.

**Applications**
For use on automobile, marine, aircraft and industrial applications.

### Citra-Blast AC

**Foaming Degreaser-Cleaner**

Penetrates and lifts hard to remove grease and soil. This product is an amazing dextro-limonene all natural citrus extract. It is a multipurpose, aerosol foaming degreaser/deodorizer designed for food service.

**Features**
- Effective for emulsifying vegetable oil and animal fats.
- Used in industrial/automotive areas for heavy-duty degreasing.
- This product can be used safely with minimal protective equipment.

### Choke & Carb Cleaner

Choke & Carb Cleaner uses a high power blasting action plus a special blend of high strength solvents which quickly removes harmful deposits from internal chamber areas.

**Features**
- Better Mileage and Performance—eliminates rough idling and removes carbon build up.
- Removes Carbon, Dirt, Gum, Grease and Varnish Deposits.
- Will Not Foul or Coat—safe on oxygen sensor and catalytic converters.

**Applications**
Cleans, frees and renews automatic chokes, carburetor linkages, PCV valves, manifold heat controls, thermostat coils and butterfly valves.

ZenaCoil
Evaporator/Condenser Coil & Fin Cleaner

Zena Coil is formulated to penetrate air-conditioner coils and fins to remove all types of soils. NOTE: Product may harm some plastics. Test before using.

**Features**
- Removes grease, oil and water deposits.
- Self rinsing.
- Fast acting.

**Applications**
- Air Conditioners.
- Central Cooling Systems.
- Auto Air Conditioners.

Vigor M Super
Water Soluble Industrial Cleaner & Degreaser

**Features**
- Spray or mop on and wipe off.
- Ideal for use in automatic scrubbers because of low foaming qualities.
- A heavy duty cleaner and degreaser.
- Penetrates and emulsifies even in the heaviest dirt, grease and oil.

**Applications**
Grease, wax, gum, dirt, ink, carbon, oil and lipstick.

PB Blaster

**Features**
- Offers to Quickly Break Loose Surface Tension Rust and Corrosion by Creeping Up, Around and Into Hard-To-Reach Cavities.
- Features the Ideal Option for Brake, Exhaust, and Suspension System Jobs.
- Offers a Non-Evaporating Lubricating Film that Remains On Parts Preventing Further Rusting.
- Features a True Penetrant - Saves Time and Money By Ensuring User Won't Have To Burn Off Or Drill Out Nuts, Bolts, Pipe Threads, Etc.
- Includes a Special Capillary Action that Allows PB Blaster to Work Where Others Fail!

## Tool Cool

A special blend that extends the life of drill bits, taps and reamers through reduction of tool temperature.

**Features**
- Reduces tool temperature and helps trim friction.
- Extends tool life.
- Prevents heat build-up in heavy material.
- Helps disperse cutting chips.
- Has no sticky residue.
- Clean up of chips is fast – wipe off with a rag or blow off with an air hose.
- Non-flammable.

**Applications**
- Drill Bits
- Taps
- Reamers

---

### Fast Cut

**Cutting & Tapping Compound**

A foaming oil that clings to all cutting tools, preventing waste and over spraying. Combines synthetic and natural lubricants for maximum high pressure lubrication, which will increase the cutting rate without overheating.

**Features**
- Prevents chip welding.
- Eliminates dangerous and costly tool breakage.
- Can be used on aluminum.

**Applications**
Use in industrial plants, machine shops, automotive shops, oil rigs and industrial manufacturers.

---

### Cutting Fluid

**Features**
- A clear synthetic lubricant for the machining, cutting and grinding of ferrous and non-ferrous metals.
- A concentrated synthetic coolant for metal working applications.
- Can be used as is or diluted with up to 40 parts water.
- Prevents corrosion.

**Applications**
Effective for use in working carbon steel, stainless steel, vanadium, chrome, molybdenum, nitralloy, titanium and bronze.

---

### Tru-Kool

**Exotic Metals Lubricant**

Tru-Kool is specially designed for problem metalworking jobs, and is the best product available for stainless, high carbon, high chrome, cast iron, monel, etc. It’s also the solution for difficult metal working operations such as welds on carbon steel.

**Features**
- Cuts 30% faster than dry cutting.
- Extends cutting tool life.
- Reduces down time.

**Applications**
- Use on non-ferrous metals, such as brass and aluminum.
- Use for drilling, tapping, sawing, spot facing, counterboring, milling, fly-cutting, seat forming, engraving, broaching, drawing, piercing, punching, hole extruding and more.

* Individual results may vary by material and drill
### Tool Ease
*Solid Lube Stick*

**Features**
- Ideal for fast and easy lubrication of a wide range of metalworking jobs.
- Easily applied by hand directly to the tool.
- The best product available for portable metal cutting applications.
- Use for all drilling, tapping, sawing, milling, engraving, drawing, piercing, punching and hole extruding operations.
- Also ideal for lubricating sliding windows, doors and other mechanisms.

### Air Tool Conditioner

Air Tool Conditioner provides a fast, effective way to clean, lubricate and extend the operating life of all air tools.

**Features**
- Fast and easy to use.
- Perfect for grinders, drills, sanders, impact wrenches, polishers, air motors and jack-hammers.
- Removes build-up of calcium, varnish, sludge and water.
- Enables air pressure to penetrate more freely, thus giving more power to the tool.
- Enables motor parts to move more freely.
- Restores air tools to peak power and rpms and enables tools to work more efficiently.
- Helps prevent tool binding & slow down.
- Inhibits rust.

Hi-Density Lube-All
Hi-Density Lube-All was developed to be a transparent, high pressure lubricant with extremely high adhesive strength.

Features
- Tremendous temperature range up to 600°F.
- Will not break down under high temperatures as other heavy greases do.
- Resists water wash out to keep parts lubricated, prevent rust and corrosion.
- Penetrates as a liquid and sets up as a gel for hard to reach areas.
- Excellent for use on door hinges, open gears, wire ropes, cables, conveyors, chains and sprockets.

<table>

Silicone Spray
Food Grade Silicone
Silicone Spray is a lubricating, water-proofing and rustproofing agent for indoor and outdoor applications. Made especially for use on food processing equipment and containers. Use to eliminate minor squeaks.

Features
- Use safely on food handling equipment.
- Stays within FDA guidelines allowing no more than 10 ppm to be imparted to food.
- Helps fight rust on all types of molds and dies and keeps materials from sticking to conveyor belts.
- Prevents papers and plastics from sticking to heat sealing equipment.
- Dry lubricant, release agent – heat stable with rust inhibitor.
- Temperature range works from -58°F to +575°F.

Applications
Conveyors, slicing machines, grinders, cooking coils, mixers, hand equipment, saws, packaging machines, etc.

<table>

Dry PTFE Lubricant
Dry PTFE Lubricant is a chemically inert, non-oil, fast drying lubricant and release agent containing an extremely fine Teflon® powder.

Applications
- Used by bottling plants, dairies, processing and packaging plants, manufacturing plants, maintenance departments, and assembly operations.
- Safe on plastic, aluminum, rubber, glass, wood, paper, metal.

<table>

Red Grease HD
Features
- Aluminum based multi-purpose lubricant provides extra protection under extreme pressures.
- Excellent reversibility (ability to return to original consistency after exposure to heat) – will not harden, separate or emulsify when subjected to excessive heat or pressure. 100% waterproof – resists water, acid, salts, and alkaline chemicals
- Prevents dust and grit from migrating into the grease.
- Penetrates as a liquid - congeals to a thick grease. Maintains high viscosity under high load and resists oxidation during periods of no load and at rest.
- Good shear resisting structure minimizes thinning under high load thereby maintaining the viscosity to provide good lubricity.
- Non-freezing

Applications
For use on all electrical motors, shafts, fifth wheels, roller chains, agricultural hitches, heavy duty equipment, bearing surfaces, cables, pulleys, hinges, etc.

<table>

### Chain & Cable

**Lubricates Gears, Chains & Cables**

Thick foam clings to vertical surfaces. As foam breaks, Chain & Cable penetrates into wire rope, link and roller mechanisms.

**Features**
- Recommended for use in severe climatic conditions.
- Will not break down under high temperatures.
- Provides resistance to wear.
- Extreme pressure capability.
- Contains graphite.
- Forms protective rust barrier.
- Will not attract dirt and grime.

**Applications**
- For use on cranes, hoists, cables and roller mechanisms.

![Wire Rope Cross Section](Wire_Rope_Cross_Section.png)

The 3-piece section in the center of the rope is called a “Hemp”. As cable strains when a load or stress is put on it, the steel tends to stretch, and the center steel hemp section rubs together causing wear in the cable. Chain & Cable not only lubes the outside of the cable, but will penetrate the outer wires of the cable and lube the center hemp. This is critical in minimizing wear on all cables. Most cable wear is on the inside core with very little evidence on the outside, thereby showing very little signs of potential failure until it’s too late and the cable needs to be replaced.

### Sili Lube

**Heavy Duty Silicone**

**Applications**
- Use on rusted parts, wire cable, door hinges, chains, hoists, pulleys, cranes, fork lifts, sprockets, gears, block & tackle, conveyors, construction machinery, industrial parts, locks, box forming equipment.
- Use on farms, oil rigs, refineries, bottling plants, dairies, paper mills, cotton gins, air conditioning, industrial plants, textile plants, lumber mills, cement plants, automotive/motorcycle/marine repair, packing houses.

**Note:** Product may harm some plastics. Test before using.

### Open Gear Lubricant

A lubricant with excellent adhesion and heavy viscosity providing a tough lubrication that will not drop or be thrown off.

**Features**
- An excellent long life formula that is very effective, even in underwater conditions.
- Clinging tacky formula.
- Lubricates and protects all gear surfaces.
- Can withstand extreme pressure capacities.
- Increases gear life.

**Applications**
- Use on chains, cable, hoists, gears, drag lines, cranes, snow removal equipment, marine and dockside equipment, fifth wheels, elevators and more.

### Slick

**Teflon® and Moly Penetrating Lubricant**

Slick is a USDA authorized penetrating oil and rust dissolver containing micron size particles of Teflon® and Moly.

**Features**
- Contains Teflon® and Moly for excellent lubrication.
- Withstands heavy loads.
- Resists rust and corrosion even in extreme conditions.
- Prolongs life of machinery.
- Quickly penetrates to free rusted parts.

**Applications**
- For use on rusted parts, wire cable, door hinges, chains, hoists, pulleys, cranes, fork lifts, locks, sprockets, gears, block & tackle, conveyors, construction machinery and industrial parts.
- For use by farms, oil rigs, refineries, bottling plants, dairies, paper mills, cotton gins, cement plants, industrial plants, textile plants, lumber mills, automotive/ motorcycle/marine repair, and air conditioning.

## 10.3 LUBRICANTS

### Red Grease Cartridge

**High Temperature Applications**

Red Grease is a superior performance non-melt grease formulation with high impact protection, corrosion resistance and maximum service life.

**Features**
- Extreme pressure properties provides protection under high loads and temperatures.
- Will not melt, run or drip at any temperature.
- Better performance and pumpability at colder temperatures.
- Use on anti-friction bearings, fifth wheels, king pins, sliding surfaces, conveyors, chassis points, bucket pins, electric motors, couplings and several other applications requiring a long-lasting and reliable lubricant.

10 cartridges per case. Cases cannot be broken.

### White Food-Grade Grease Cartridge

This specialty high temperature polymer grease is engineered specifically for the food processing and packaging industry. It is an NSF H-1 registered grease.

**Features**
- Odorless and Non-Toxic.
- Superior water washout resistance, rust and corrosion protection.
- Use on sleeve bearings, anti-friction bearings, slides, guides and couplings.
- Wide operating temperature.
- Excellent protection in applications subjected to high temperature, steam and other water prone environments.
- Ideal for all applications such as Food Processing, Pharmaceutical, Cosmetic and Drug Manufacturers, Bakeries -- anywhere incidental contact is a concern.

10 cartridges per case. Cases cannot be broken.

10.3 LUBRICANTS

ZenaLube Moly
(Molybdenum Disulfide Dry Lubricant)

Features
• Designed for applications to areas servicing high temperature (-28°F - 600°F, -33°C - 315°C) and high pressure conditions.
• Fast Dry
• Strong Bond
• Oil Free
• Its micro-sized molybdenum disulfide provides excellent anti-friction and anti-seize properties.
• ZenaLube Moly-MCL is non-corrosive, adheres to most materials, repels dust and dirt, and greatly increases operating efficiency.
• Resistant to water, alkalies, and most acids.
• Extends the life of parts, thus reducing maintenance costs.

Applications
• Use on all metal moving parts, high speed gears, machine tools, pump assemblies, conveyors, chain drives, fittings, linkages, bearings, wire cable, pipes, engines, heavy equipment, exposed metal parts.
• Use in industrial plants, oil rigs, pipe yards, construction areas, machine shops, farm equipment, repair services, office machines, aircraft manufacturers and suppliers, commercial printers.

EZ LUBE White Grease
(Multi-Purpose White Lubricant (Food Grade))

EZ LUBE food grade white grease is a high purity complex white grease with superior heavy-duty metal to metal characteristics. Excellent for high load applications requiring a long grease life. Resists water and heat. Provides rust corrosion protection and superior lubrication to a wide variety of applications.

Features
• Extreme temperature resistance (-40°F to +550°F).
• Excellent adhesion.
• Reduces frequency of lubrication.
• Resists acids, oxidation, dirt, and salt spray.

Applications
• Use on ovens, dryers, gears, valves, pumps, winches, conveyors, chain drives, fittings, linkages, wire rope, hoists, threads, rollers, cams, slide bearings, o-rings, manifold heat valves.
• Use in bakeries, bottlers, breweries, canneries, dairies, egg processors, edible chemical manufacturing, meat and poultry processors, pharmaceutical manufacturers, food processing and packaging plants.

EZ LUBE White Grease
(Multi-Purpose White Lubricant (Food Grade))

EZ LUBE food grade white grease is a high purity complex white grease with superior heavy-duty metal to metal characteristics. Excellent for high load applications requiring a long grease life. Resists water and heat. Provides rust corrosion protection and superior lubrication to a wide variety of applications.

Features
• Extreme temperature resistance (-40°F to +550°F).
• Excellent adhesion.
• Reduces frequency of lubrication.
• Resists acids, oxidation, dirt, and salt spray.

Applications
• Use on ovens, dryers, gears, valves, pumps, winches, conveyors, chain drives, fittings, linkages, wire rope, hoists, threads, rollers, cams, slide bearings, o-rings, manifold heat valves.
• Use in bakeries, bottlers, breweries, canneries, dairies, egg processors, edible chemical manufacturing, meat and poultry processors, pharmaceutical manufacturers, food processing and packaging plants.
Anti-Seize Compound
*Push-Activated Brush Container*

**Features**
- Withstands extreme weather conditions.
- Will not wash off, separate, evaporate or harden.
- Prevents galling, galvanic action and seizing up to 1,800°F.
- Will not fuse to metals.
- Seals and waterproofs threaded parts.
- Prevents rust and corrosion.
- NEW removable top for cleaner storage.

**Applications**
For use on Nuts, Bolts, Studs, Screws, Slides, Lugs, Grounding Clamps and Connections, Battery Lugs and Cables, Keys and Keyways, Pins, Compression Connectors, Lamp Sockets and Receptacles on Boats, Autos and Trucks, Piping Couplings, Press Fits, Steam Injection Fittings, Gaskets, Flanges and more.

---

**Anti-Seize Lubricant & Pump**

**Features**
- Selected prepared blend of extra fine graphite and aluminum particles in synthetic oils.
- Unique qualities prevent corrosion, seizure, and galling where two metals must come together to provide a tight make up (even stainless steels).
- Absolutely non-melting, will not drip or run.
- Superior to copper or lead based lubricants because it eliminates electrolysis, withstands higher temperature and pressures and give cleaner breakouts from high torques.

**Applications**
- Furnaces and burner assemblies.
- Key ways and shaft coupling bolts.
- Fuel injectors and spark plugs.
- Low RPM bearings.
- Rollers and conveyors.
- Gears, chains and drives.
- All threaded fittings.
- Gaskets, flanges and O-rings.
- Valve stems and cages.
- Cylinder head assemblies.

---

**Extreme Temperature Anti-Seize**
*Brush Top Can*

**Features**
- Plates, protects and prevents metal surfaces from seizing at temperatures up to 2100°F.
- Contains copper for superior heat dispersion.
- Reduces friction and wear.
- Water resistant.
- Provides for tighter, firmer threaded joints that open easier.
- Excellent for all industrial maintenance and repair jobs.

---

**Anti-Seize Copper**

*Multi-purpose, threaded fastener lubricant, high temperature resistant*

The high concentration of colloidal copper compound prevents seizing, galling and pitting under adverse conditions of extreme temperatures and pressures. Provides excellent lubricity and electrical conductivity — assuring more accurate torquing and easy assembly / disassembly of bolts, nuts, studs, etc. Protects parts from rust and corrosion. Useful temperature range from -300°F to 1,800°F.

**Note:** Not recommended for high RPM bearing applications.
Industrial Guard™ Enamel  
A superior, lead-free industrial coating formulated for maintenance operations where maximum performance is required. This paint will not run or sag and provides twice the coverage of conventional aerosol enamels. For best results, always use our Red Oxide or Light Gray Primers prior to applying color coat.

**Features**
- Protects against rust, weather, oil, gasoline and most corrosive chemicals.
- Single coat hiding.
- Resists abrasion and heat.
- Withstands high humidity.

**Applications**
Wood and metal, Home, Automotive, Industrial, Marine, and Construction.

MRO Rust Tough® Paints  
Acrylic Enamel Paints

**AVAILABLE IN 12 COLORS**
- 72214  Aluminum
- 72212  Red Oxide Primer
- 72232  Safety Blue (OSHA)
- 72230  Safety Red (OSHA)
- 72228  Safety Yellow (OSHA)
- 72216  Flat White
- 72224  Dark Machine Gray
- 72226  Light Machine Gray
- 72244  Bright Green
- 72246  Equipment Orange
- 72248  Safety Orange (OSHA)
- 72250  Safety Green (OSHA)

Rust Tough® Aerosols are a rust-preventative acrylic alkyd enamel that offers state-of-the-art corrosion protection. Rust Tough™ provides excellent gloss and color retention, superior durability and one-coat coverage.

**Features**
- Complete coverage with one coat.
- Dries to touch in 25 minutes; dries to handle in 1 hour.
- Superior appearance and color retention.
- Ideal for small touch-up jobs, painting irregular shapes or covering hard-to-reach areas.
- For both indoor and outdoor use.
- Tough, high gloss finish resists chipping and peeling.
- Acrylic enamels and primers are equipped with EZ TOUCH® FANSPRAY® Nozzle.
- Modified acrylic enamel formulation.

**Applications**
Steel, storage tanks, bar joists, handrails, piping, pipe racks, conveyors, ladders, fencing, machinery, metal doors and marine applications above boot topping.

Note: Not recommended for immersion.
10.5 PAINTS & COATINGS

Valve Action Paint Marker

**Features**
- Lead free paint formulated for industrial applications.
- Dries in minutes, weather-resistant markers.
- Ideal for all surfaces: metal, glass, wood, rubber, plastic, cardboard and paper.
- Valve action fiber tip is replaceable to assure full use of marker.
- Makes fine line marks.
- Marking range-50°F to 150°F

**Applications**
Metal and PVC pipe, sheet metal, cartons, lumber, signs and tires.

---

De-Ice
Frost & Ice Remover

A fast acting frost and ice remover specifically formulated to quickly dissolve ice, frost and snow deposits.

**Features**
- Will not harm paint, cloth, metal, rubber, glass and plastic.
- No residue to impair visibility.
- Helps prevent fogging when applied to inside of window surfaces.
- Improves traction of wheels on extra thin ice.

**Applications**
- Works on windows, headlights, windshields, locks, tires, sidewalks, steps and hinges.
- Melts ice, frost and snow instantly.
- Safe on paint, metal, rubber, glass and plastic.
- Prevents and thaws frozen locks.
- Helps reduce fogging if applied to inside of windows.

---

Metal Shield
Metal Protector

An excellent corrosion inhibiting formula that seals out moisture and will not peel off with age. Will even protect against salt spray, rust and corrosion.

**Applications**
- Exposed metal parts.
- Bearings.
- Cables and chains.
- Housings.
- Precision machined surfaces and more.

---

Belt Dressing

**Features**
- Specially formulated to prevent belt slippage, stop squeals, and increase power transmission.
- Does not contain rosin or asphalt – thereby preventing belt attack and increasing belt life and preventing dry rot.
- Built in protectorants help repel dirt and protect belts from becoming recontaminated with dust and dirt.
- Revitalizes belts for longer life.
- Regular use adds life and increases efficiency.

**Applications**
Ideal for rubber, canvas, industrial, automotive and other V-belts.

Rust Converter & Primer
Transforms Rust to Primer Instantly

Rust Converter can be applied to any iron or steel surface to penetrate rust and turn it into a protective black coating. This protective coating will be resistant to moisture and prevents future rust growth. Just remove any loose rust, then apply it like a primer to rusted surfaces. Greatly reduces time spent wire brushing and sanding. Durable and tough, it can be left as is, but is also compatible with most top coats. Use for vehicles, trailers, fences, railings, sheet metal and storage tanks.

Features
- Penetrates rust and turns it into a protective black coating.
- Prevents future rust growth.
- Greatly reduces time spent wire brushing and sanding.
- Durable and tough.

Rust Converter

This product eliminates rust by performing two operations at one time. First, rust is converted to a black organic complex, then a clear acrylic coating is formed. Restore can virtually be used on all rusted surfaces, including machinery, equipment, metal buildings, tools, cars and boats.

Features
- Converts rust to protective long lasting coating.
- Keeps machinery in service longer.
- Non-toxic.
- Can be painted over.

Cold Zinc Galvanizing

Features
- Cold zinc galvanizing is a pure zinc spray coating scientifically compounded for complete metal protection. When sprayed on metal, the zinc and metal fuse forming a lasting protective shield.
- Prevents rust and corrosion. Checks corrosion on previously coated damaged surfaces.
- 90% pure zinc dust – air dries in 10 to 15 minutes.
- Immediate total protection for bare metals – anywhere metal is subjected to corrosion.
- Resistant to salt, corrosion, and water.
- An excellent primer for interior or exterior.
- Rustproofs welds.

**Graffiti Off Spray**

Graffiti Off is a heavy duty, solvent based cleaner specially formulated to remove marks of vandalism and graffiti from almost any surface. Graffiti Off removes spray paints, ink, and grease pencil streaks.

**Features**
- A superior graffiti and vandalism mark remover.
- Fast working – leaves a clean, renewed surface.
- Activated formulation dissolves spray paints, ink, crayon, etc.

**Applications**
- Safe on glass, brick, marble, concrete, tile, formica and metals.
- A necessity for hospitals, industrial and public buildings, shopping malls, buses, trains, etc.

---

**ZenaFreez**

*Chewing Gum Remover*

Quickly and easily removes chewing gum, candle wax, and other gummy substances. Fast freezing action simplifies clean-up. Use on carpets, wood, concrete, cement, terrazzo and marble floors, tile and resilient floors, and more.

**Features**
- Quick Freeze
- Easy Removal
- Fast Dry Formula

---

**Krinkle**

*Paint Remover*

**Features**
- Not for use on painted surfaces.
- Removes paint and varnish.
- Thick gel clings to and penetrates porous surfaces.
- Quickly removes paint, latex, enamel, laquer, shellac, varnish, and most finishes.
- May be wiped off or rinsed with water.

**Applications**
- Cinder block
- Sandstone
- Marble
- Brick
- Masonry
- Granite
- Concrete
- Slate

Clear Shine  
*Non-Ammoniated*

Clear Shine is a light foam cleaner which can be used on glass and many other surfaces. Will not streak, haze or smear. Excellent for commercial and institutional glass and hard surface cleaning.

**NOTE** Do not use on hot surfaces.

**Features**
- Streak and haze free.
- Removes nicotine and insect residue.
- Fresh, clean fragrance.
- Safe on window tinting film, plastics and acrylics.

**Applications**
Hospitals, nursing homes, schools, restaurants, hotels, office buildings, municipal buildings, marine aircraft and recreational vehicle trades.

Insta-Clean  
*Rubber & Vinyl Cleaner/Protectant*

Insta-Clean cleans and shines all rubber, vinyl and other synthetic surfaces without washing or wiping. Just spray and walk away!

**Features**
- Powerful foaming action.
- Amazing foaming action cleans and shines without washing or wiping.
- Leaves a high gloss protective shine.
- Repels dirt, salt and road grime.
- Protects from discoloration and oxidation.
- Will not harm aluminum or painted surfaces.
- Easy to use, can be used when surface is wet or dry.

**Applications**
Ideal for use on rubber and vinyl components of machinery/equipment, vinyl and plastic furniture, auto/truck tires…makes them look showroom new!

**Zenatize**
*Hospital Sanitizer, Disinfectant and Deodorant*

For hospitals, nursing homes, schools, and hotels as a disinfectant and deodorant. Disinfectant against Staphylococcus Aureus, Tuberculosis, Salmonella Choleraesuis, Methicillin Resistant Staphylococcus Aureus (MRSA) and Pseudomonas Aeruginosa. Meets all requirements for hospital use. Fungicidal against the pathogenic fungi, Trichophyton Mentagrophytes (Athlete’s Foot Fungus).

**Features**
- Kills 99.9% of Germs
- Pseudomonacidal
- Eliminates Odors
- Germicidal, Fungicidal, Tuberculocidal
- Kills HIV, MRSA, H1N1
- Prevents Molds and Mildews

**Applications**
- For use on telephones, toilet seats, urinals, sinks, showers, refuse cans, office equipment.
- Used by prisons, police/fire departments, hotels/motels, funeral service/crematoriums, dairy farms, physicians office, nursing homes, sports/recreational clubs, beauty shops, food processing plants and veterinary clinics.

**Ultra-Gel™ Green Max Degreaser**
Superior thick, heavy-duty formula provides spray and wipe degreaser / cleaner that destroys grease and grime on contact. It also destroys odors leaving a pleasant lemon / lime fragrance. For use on all hard to clean surfaces and degrease the toughest jobs or even light clean-ups. Extremely effective and easy to use. Will not affect paint, glass or mirrors and works great on grout and tile. The unique thixotropic formula adheres to surfaces for more effective cleaning and less dripping / waste.

**Features**
- Maximum Strength – degreases/cleans toughest soils.
- Thick, Heavy-Duty Spray – won’t drip.
- Ultimate Formula – destroys grease & grime on contact.
- Incredible Wheel Cleaner – melts away brake dust.
- Thixotropic* Spray – sticks to surfaces for more effective cleaning.

---

**Ultra-Gel™ Orange Glass & Surface Cleaner**
This incredible streak-free, ready-to-use formula dissolves film, soils, fingerprints, grease, oil, bugs and much more. Ideal for glass, windshields, mirrors, chrome, stainless, painted and virtually any hard surfaces. Superior for vertical or over-head surface cleaning as it clings without dripping. Test on inconspicuous area prior to use on sensitive or colored/painted surfaces. Pleasant odor neutralizer, formulated to kill malodors at their source.

**Features**
- Superior Strength Cleaner – destroys tough soils.
- Multi-Surface – superb on glass, mirror, chrome, stainless, paint, etc.

---

**Redi-Clean**
Ready to Use Degreaser and Cleaner

**Features**
- Non-toxic.
- No fumes.
- Safe on ALL surfaces.
- Just spray it on.
- Removes grease, grime, oil, soap film, ink and wax.

**Applications**
- Walls.
- Floors.
- Trucks.
- Porcelain.
- Stainless steel.
- Exhaust fans.
- All kitchen surfaces.
- Equipment.

**All Weather Formula**

Heavy-duty, non-streaking foaming cleaner for non-conductive surfaces. Ideal for use in cold weather.

**Features**
- Cuts through frost and film in frigid temperatures.
- Wipes surfaces clean without streaking.
- Ideal for using in a cold environment.
- Clings to vertical surfaces such as metal, plastic and glass without running.
- Contains powerful solvents, ammonia, and wetting agents to handle difficult cleaning projects.

Citrus Drain Degreaser

A powerful citrus based, biodegradable cleaner

Revitalizes sluggish disposal systems without affecting bacterial activity. Effectively controls odor. Will not harm metal pipes. Degreases equipment, machinery and other metal surfaces effectively. Do not use on PVC pipe.

**Features**
- Environmentally safe.
- Unclogs, deodorizes and degreases.
- Extremely effective in drains, grease traps, septic systems, dry wells and cesspools.

**Applications**
Effective in sewage treatment plants, landfills, waste disposal facilities and for the maintenance of drains, refuse trucks and cans, garbage areas.

En-Zip

*Liquid Enzyme Digester*

Contains a special blend of bacteria/ enzymes, detergent and deodorant containing 80 million aerobic and 80 million anaerobic bacteria per ml. It helps restore normal biological activity as it digests organic waste. The great fragrance controls odors instantly.

**Applications**
- Drain lines
- Septic tanks/holding tanks
- Dump stations
- Lagoon/Pond usage
- Trash cans
- Ashtrays
- Dumpsters
- Dorms

**Drain Lines, Down Pipes:** Pour in the drain line opening. Use product 2 to 4 times weekly. Add product according to chart at right.

**Grease Traps:** For small grease traps less than 20 cu. ft, pour 4-5 oz. daily into sink or pipeline. For large grease traps, use 8-10 oz. daily.

### Scrubz-It™
**All Natural Industrial Hand Cleaner**

Contains natural, crushed walnut shell scrubbers

**Specifications**
- Color: Light Brown
- Odor: Citrus
- pH: 6.5

**Features**
- Deep cleans the toughest soils.
- Contains natural, crushed walnut shell scrubbers - Nearly 20% compared to 8% scrubbers in other brands. Non-irritating, crushed walnut shells penetrate tough grime on the creases of fingernails and knuckles.
- Non-solvent formula eliminates drying and cracking.
- Contains 6 distinctive hand lotions that leave hands feeling clean, soft and protected, not greasy. Others use low grade lanolin that leaves hands feeling greasy or sticky.
- Won’t clog drain lines or collect in plumbing systems.
- Thick concentrated formula reduces hand soap use by up to 75%.
- Use to clean grease, grime, paint, marker ink, dirt and other stubborn soils.
- Biodegradable and phosphate-free.

Enzo Magic
Enzyme Active Stain & Odor Eliminator with d-Limonene

Enzo Magic is a concentrated blend of enzymes and d-limonene designed to break down organic stains and odors caused by blood, urine, feces, vomit, grass stains, milk, ketchup, baby food and most other foods.

NOTE: This product was specifically designed to remove stains and spots from carpets. Use on any other type of material such as upholstery fabric, curtains or clothing will NOT be warranted by the manufacturer.

*Features*
- Eliminates reoccurring odors by eliminating their source.
- Can be used alone or in conjunction with other cleaners to achieve superior results.
- Leaves behind a pleasant citrus fragrance.

*Applications*
- Animal shelters, apartments, offices, athletic facilities, schools, nursing homes, hospitals, hotels/motels.

Super Cherry Odor Control

Features
- Silica Free, can be burned (less waste in landfill), biodegradable, long lasting.
- Large size will not blow away, use indoor/outdoor.
- Quickly absorbs oil, liquid spills, urine, blood.
- Covers large areas of landfills, forms an odor eliminating blanket.

Applications
- Odor control, spill control.
- Sprinkle into empty garbage receptacles, large or small, and add additional amount of granules for the large receptacles outside restaurants, motels, hotels, cafeterias, etc.
- Deodorizes refuse/garbage trucks, drain beds, leaching fields, waste dumps, locker rooms, kennels, sewer manholes.

Sting
Wasp & Hornet Killer

EPA Registration #11623-38-81169

Long range, fast acting wasp and hornet killer with synthetic pyrethroid formula that literally stops wasps, hornets, yellow jackets and bees in flight on contact.

Features
• Special blast valve sends a powerful, anti-drift stream twenty feet or more to quickly and safely saturate nests and swarms.
• Residual action continues to kill as insects return to nest.
• Non-conductive formula has a dielectric strength of 33,000 volts/cm.

BugX 30

Features
• This newly approved EPA formula reduces the amount of DEET needed to effectively repel insects.
• Bug X 30 Insect Repellent with 30% DEET is effective for 7+ hours of protection. It is EPA registered in all 50 states.
• Non-greasy.
• Non-staining.
• Low odor.
• Water and sweat resistant.

Total Solutions™ d’BUG
An all-natural, non-toxic insecticide

EPA Registration #61887-1-68562

Non-toxic and safe to use around humans, animals and food. Instantly strips away protective wax coating from the exoskeletons of insects, causing them to suffocate and die on contact. It can also be used as a residual insecticide that works for several weeks after application. DOES NOT INCLUDE SPRAY NOZZLE.

Features
• EPA approved, non-toxic formula is safe for use around children, pets and food
• Use as a contact insecticide for immediate kill.
• d-Limonene dissolves the protective layer of wax from the exoskeletons of insects causing them to suffocate and die.

Applications
Effective against ants, fleas, silverfish, roaches, palmettos.

Bug X FREE Insect Repellent Without DEET

Finally there is an industrial strength, naturally derived, plant-based deet free insect repellent that works! Bug X FREE is a natural, deet free insect repellent providing protection against mosquitos. Bug X FREE is the perfect answer when Fire Retardant (FR) clothing is being worn, environmental conditions prefer natural products to be used, and/or face and neck protection is needed.

Features
• Safe to Use on Fire Retardent Clothing.
• Non-Flammable.
• Naturally Derived, Plant-Based Geraniol.
• Easy Application.
• Convenient.

Quik Seal
Rubberized Sealant
A tough, flexible, rubberized sealant for temporary or permanent applications on a variety of surfaces.

Features
- Elastic barrier seals out moisture.
- Fast drying.
- Resists rust, road salts, alkali & acids.
- Allows maximum build-up without sagging.
- Can be top coated after curing without bleedthrough.
- Resists temperature extremes.
- Deadens sound.
- 18 oz. (511 grams)

Applications
- Roof areas, skylights, flashings, air vents, gutters, antenna installations, small cracks/holes in driveways, tree/shrub pruning.

R.T.V. Gasket Maker & Sealer
Tough silicone adhesive adheres to and bonds natural and synthetic fibers, glass, metal, wood, other silicone rubber, hard-to-stick-to plastics, masonry products, etc. Numerous maintenance applications seals against water, air, chemicals, oils and grease. Fills crevices and irregularities in joints. Waterproofs porous materials and perfect for weather stripping. Insulates against shock and vibration and is a great electrical insulator. A perfect gasket maker for just about anything.

Applications
- Gasketing pumps, oil pans, valve covers, gear boxes and compressors.
- Seals windows, pipe joints, parts, bonds gaskets, appliance parts, sign letters, caulks joints, duct work, equipment housings.

Hi-Temp Red Gasket Maker & Sealer
With Pressure Can Application
R.T.V. Gasket Maker & Sealer is a single component room temperature vulcanizing silicone rubber. R.T.V. will adhere to clean metal, glass, most types of wood, silicone resin, vulcanized silicone rubber, ceramic, natural and synthetic fiber as well as painted and many plastic surfaces. Long life expectancy in excess of ten years. Tack-free in just 5 minutes and cure time at 1/8” thickness is just 24 hours.

**Rite-Tite Blue**

*Medium Strength Threadlocker*

Liquid threadlockers are considered to be the most effective method of locking and sealing threaded fasteners. Rite-Tite Blue is a medium strength anaerobic threadlocker designed for locking threaded fasteners from 1/4” to 3/4” in diameter, that require disassembly with standard hand tools. Exhibits good temperature and solvent resistance.

**Features**
- Bolts 1/4” to 3/4”.
- Temperature range: -65° to 300°F (-54° to 149°C).
- Seals most types of nuts and bolts allowing disassembly using standard tools.

**Applications**
Studs and bolts, threaded pipe fittings, locking nuts and bolts larger than 1/4” diameter.

**Rite-Tite Green**

*Medium Strength Wicking Threadlocker*

Rite-Tite Green is a fast cure, low viscosity wicking anaerobic threadlocker designed to seek voids in assembled components and cure anaerobically. Can be used as a post assembly application to prevent the loosening of metal threaded fasteners.

**Features**
- Bolts up to 1/2”.
- Temperature range: -65° to 300°F (-54° to 149°C).
- Seals most types of nuts and bolts allowing disassembly using standard tools.

**Applications**
Studs and bolts, threaded pipe fittings, locking nuts and bolts up to 1/2” diameter.

**Rite-Tite Red**

*High Strength Threadlocker*

Threadlockers perform better than traditional mechanical devices such as lock washers because they utilize the entire assembly. This prevents any loosening from shock and vibration. Threadlockers also alleviate rust-lock and prevents any leakage. Rite-Tite Red is a high strength anaerobic threadlocker designed to permanently lock fasteners up to 1” in diameter. Exhibits good temperature and solvent resistance.

**Features**
- High strength threadlocker.
- Temperature range: -65° to 300°F (-54° to 149°C).
- Heat and hand tools required to separate parts.

**Applications**
Permanently lock studs and bolts, threaded pipe fittings, locking nuts and bolts up to 1” diameter.

Seal-Tite Purple
Hydraulic/Pneumatic Sealant

Seals and secures metal pipes and fittings by filling the space between threaded metal parts. Prevents leakage caused by tape shredding, vibration loosening, solvent evaporation, and damaged threads. Because of the lubricating properties, thread sealants make it easy to assemble fittings and also prevent galling of the threads. For repairs, parts may be disassembled with basic hand tools.

**Features**
- Provides high pressure seals.
- Temperature range: -65° to 300°F (-54° to 149°C).
- Maximum resistance to most solvents.
- Will not contaminate or clog lines.
- Use on hydraulic threaded connections.

Hercules® Real Tough™
PTFE Thread Sealant

A multi-purpose thread sealant formulated with the highest percentage PTFE content on the market. PTFE particles fill cracks and tiny thread imperfections – providing superior lubricating and sealing properties.

**Features**
- Leak-free joints can be tested and put into service immediately.
- Holds tight against vibration, expansion, and contraction.
- Brushable; non-separating; will not run or drip from joints.
- Soft set; no cure time required.
- Withstands temperatures from -50°F to 500°F (on steel pipe), and pressures of 12,000 psi (hydraulic), 2600 psi (gas).
- For use with liquids, including acids and alkalis and gases (except oxygen).
- Superior anti-galling properties with stainless steel.
- Excellent resistance to strong acids, alkalis and ketones.
- Non-flammable and contains no heavy metals or volatile solvents.
- Certified to ANSI/NSF Standard 61, safe for potable water lines.

**Applications**
Metals, including galvanized steel, black iron, aluminum, copper, brass, stainless steel and on PVC, ABS & CPVC.

Super Glue Gel - Double Pack

Super Glue Gel has a thick viscosity that is perfect for vertical, porous (wood, hard leather and porcelain) surfaces. The high viscosity of the Gel allows for a more accurate application as they do not drip or run. It has excellent adhesion on less than perfectly matched surfaces.

**Features**
- High Viscosity Gel—For Superior Performance on Porous Surfaces.
- Won’t Run or Drip—Allowing for Vertical and Overhead Applications.
- Wide Operating Temperature Range From-65°F to 180°F (-54°C to 82°C).

**Applications**
Aluminum, Ceramic, China, Fingernails, Hard and Soft Woods, Jewelry, Leather, Metal, Plastics (most), Pottery, Rubber and Vinyl.

Future Glue® Gel - Brush Cap

Future Glue is a high performance instant adhesive that works best for the toughest jobs. Surfaces do not even need to be cleaned prior to application! Its powerful adhesive formula works on dirty, greasy surfaces and resists high and low temperatures and most chemicals. Its instant bonding power can be used for almost all porous and non-porous materials.

**Features**
- Brush Cap—Safety Coats Surfaces While Eliminating Skin Contact
- Bonds Through Dirty, Oily Surfaces. Ideal for Toughest Applications
- Super Fast 10 - 30 Second Set Time Assures Instant Fix
- Wide Operating Temp Rang From-65°F to 180°F (-54°C to 82°C)

**Applications**
Aluminum, Cardboard, Ceramic, China, Cork board, Fingernails, Hard and Soft Woods, Jewelry, Leather, Metal, Plastics (most), Porcelain, Pottery, Rubber and Vinyl

10.13 ADHESIVES

Z-7 Debonder®
Debonding Agent for All Super Glues
Features
• Softens and removes cured cyanoacrylate adhesives, most other adhesives, paint, oils, mold release, printer ink and permanent markers.
• Odorless.
Applications
Great for unsticking fingers, softening threadlocking compounds, removing signs, etc.

E-6000 Self-Leveling Adhesive
An indispensable maintenance tool, E-6000 allows the kind of permanent repair and maintenance of equipment that may have been too expensive or difficult in the past. E-6000 provides adhesion strength and versatility not found in silicones and rubber cements. Its strength in adhering metals, glass, rubber and plastics makes it a universal vehicle maintenance and repair solution. Also, because it's self-leveling, E-6000 may be used as potting material in electrical and computer applications.
Features
• Abrasion-resistant.
• Maintains its flexible bond in cold temperatures and may be used to bond items subject to vibration.
• E600 withstands temperatures ranging from 50 °F to 90 °F (10 °C to 32 °C) and between -40 °F and 180 °F (-40 °C and 82 °C) when cured.
• Although it is not formulated for exposure to sunlight, it may be painted over for maximum UV resistance.
• It is not recommended for use on any polystyrene, polyethylene, polypropylene plastics or styrofoam.
• E6000 dries to a rubber-like consistency that is flexible and moves with adhered material and should not crack or break.
• Allow approximately 10 minutes to dry. Starts getting tacky in approximately 2 minutes and begins setting in. A full cure takes between 24 and 72 hours.
• Remember, temperature and humidity will affect dry time. To speed drying, apply heat using a handheld dryer set on low. Do not hold heat directly on E6000.
• Clean-up E6000 with small amounts of acetone or citrus-based solvents before it cures. Cured E6000 may be removed by cutting and scraping.
Applications
• Exceptional adhesion to wood, metal, glass, fiberglass, ceramics, masonry and concrete. (Not for use on styrofoam).
• Adheres strong to leather, rubber, vinyl and many plastics.

Steel Stick
*For Steel Hard Repairs*

Steel Stick Epoxy Putty Stick is a hand-kneadable, fast-setting, industrial-strength, steel-reinforced polymer compound for permanent repairs to anything made of steel or other metals.

**Features**
- Will not shrink or rust.
- Putty-like consistency eliminates drips and runs for a “no mess” application.
- No tools required for use.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined, and painted.
- Certified to Standard 61 by The National Sanitation Foundation for use in contact with drinking water.

**Applications**
- Rebuild small engine parts.
- Fill cracks and voids in metals.
- Rebuild rust damage.
- Fill dents in motorcycle and auto bodies.
- Repair stripped threads.
- Anchor machines.

Titanium Stick
*For High Temperature Repairs*

Titanium Stick is a hand-kneadable, titanium-reinforced, epoxy putty adhesive sealant for high-temperature applications. It is designed to bond and repair materials that will be exposed to high temperatures for use in a variety of industrial maintenance applications.

**Features**
- Putty-like consistency eliminates drips and runs for a “no mess” application.
- No tools required for use.
- 8 hours after application can be drilled, sawed, sanded, filed, tapped, machined, and painted.

**Applications**
- Repair iron pipes and tanks.
- Fill blowholes.
- Form molds, patterns and castings.
- Repair stripped threads, tools and equipment.

Copper Stick
*For Copper, Brass and Bronze Repairs*

Copper Stick Epoxy Putty Stick is a hand-kneadable, fast-setting, copper-reinforced polymer compound for permanent repairs to copper, brass, bronze and other non-ferrous metals. It also bonds to wood, glass, masonry and many plastics.

**Features**
- Bonds to damp and slowly leaking surfaces.
- Putty-like consistency eliminates drips and runs for a “no mess” application.
- No tools required for use.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined, and painted.
- Certified to Standard 61 by The National Sanitation Foundation for use in contact with drinking water.

**Applications**
- Repair leaks in household water lines within minutes.
- Fix freeze breaks in 15 minutes.
- Seal pipes, elbows, joints, sleeves, traps and drains.
- Join and seal copper rain gutters and downspouts.

Aluminum Stick
*For Aluminum Repairs*

Aluminum Stick is a hand-kneadable, fast-setting, aluminum-reinforced polymer compound for permanent repairs to anything made of aluminum. It also bonds to other metals, wood, glass, masonry and many plastics. It comes in a handy “Tootsie-roll®” form with the curing agent encapsulated in the contrasting color base material.

**Features**
- Will not shrink or rust.
- Putty-like consistency eliminates drips and runs for a “no mess” application.
- No tools required for use.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined or painted.
- Cures in one hour.

**Applications**
- Repair seams in rain gutters and downspouts.
- Rebuild torn screw holes in storm windows and doors.
- Seal leaks in aluminum boats.
- Fill in dents in recreational vehicles.
- Mend machine parts and castings.
- Repair leaky radiators, aluminum tanks and tubing.

Wood Stick
For Wood Repairs

WoodStick Epoxy Putty Stick is a hand-kneadable, fast-setting polymer compound for permanent repairs to wood. It also bonds to metal, glass, masonry and many plastics.

Features
- Will not shrink or pull away.
- Cured hardness and density are similar to that of wood.
- Can be stained to match color of wood.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined, and painted
- Conforms to ASTM D-4236.

Applications
- Fill scratches, gouges, cracks, dry rot, insect damage and knotholes.
- Repair furniture, molding and frames.
- Reshape woodcarvings.
- Mold wood knobs and handles.
- Can be sculpted or carved for intricate detail.

Aqua Stick
For wet areas & underwater surfaces

AquaStick Epoxy Putty Stick is a hand-kneadable, fast-setting, fiber-glass-reinforced polymer compound for permanent repairs to many surfaces including fiberglass, concrete, glass, ceramics, metals, wood, and many plastics. This underwater repair epoxy putty comes in a handy “Tootsie-roll®” form with the curing agent encapsulated in the contrasting color base material.

Features
- Can be applied under water.
- Putty-like consistency eliminates drips and runs for a “no mess” application.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined and painted.

Applications
- Repair cracks in spas, hot tubs, pools, etc.
- Patch dings, scratches, cuts and gouges in fiberglass, metal and wooden boat decks and hulls.
- Seal leaks in water tanks.
- Form custom gaskets.
- Repair loose or cracked wall or floor tiles.

Plastic Stick
For Plastic Repairs

Plastic Stick is a hand-kneadable, fast-setting polymer compound for permanent repairs to most major plastic types. It does not adhere to polyethylene, polypropylene and some other plastics. When unsure of product type, an adhesion test will confirm suitability. PlastiStick also bonds to metal, wood, glass and masonry.

Features
- Will not shrink or pull away.
- Putty-like consistency eliminates drips and runs for a “no mess” application.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined or painted.
- Conforms to ASTM D-4236.
- Certified to Standard 61 by The National Sanitation Foundation for use in contact with drinking water.

Applications
- Seal leaks in PVC and ABS plastic plumbing pipes.
- Rebuild rigid and semi-flexible plastics.
- Reattach automotive trim.
- Repair gouges and cuts in vinyl siding.
- Join plastic downspouts and gutters
- Rebuild appliance knobs and handles.

Concrete Stick
For Concrete Repairs

Concrete Stick is a hand-kneadable, fast-setting polymer compound for permanent repairs to concrete and masonry. It also bonds to metals, wood, glass and many plastics.

Features
- Will not shrink.
- Putty-like consistency eliminates drips and runs for a “no mess” application.
- No tools required for use.
- One hour after application can be drilled, sawed, sanded, filed, tapped, machined, and painted.

Applications
- Patch chipped concrete floors, curbing and steps.
- Seal basement leaks.
- Repair and rebuild decorative concrete trim moldings, statues, birdbaths, and other concrete lawn ornaments.
- Rebuild chipped cemetery headstones.
- Anchor bolts, screws, railings, workbench or machine legs.
- Seal tie-rod holes.

Clear Two-Part Fast Cure Adhesive

This is a 5 minute fast-curing 2-part epoxy packaged in a convenient syringe for easy dispensing and mixing. It is used for the fast bonding of wood, fiberglass, metal, glass, masonry, ceramics and some plastics. It sets in approximately 4 to 7 minutes and is virtually unaffected by gasoline, oil, grease, hydrochloric and sulfuric acids and water. It dries to a clear finish and does a great job on fiberglass.

Fusion-Weld™ Instant Cold Bond Adhesive

Fusion-Weld™ is an advanced polymer adhesive that can quickly, sometimes instantly, bond most materials including rubber, glass, copper, aluminum, steel, and most plastics to themselves or another material. The welding powder is a complementary formulation that enables even stronger bonds, and can repair holes, cracks, and gaps. Produces a strong weld seam to support the repair, just like solder or welded joints.

**Features**
- High strength bond in seconds.
- Instantly bonds most surfaces.
- Can be filed, drilled and painted.

“Shur-Shot” Dispensing Gun

No. 70552

The Pipe Tourniquet

A unique product designed for immediate sealing of leaks of all types of pipes, without prior surface preparation. The Pipe Tourniquet creates such a superb seal that it is not necessary to reduce pressure in the pipe to effect the repair, and is generally applied within one (1) minute. For use in conjunction with epoxy repair products, it also increases corrosion resistance by placing a barrier between the product and the repair compound. Can be used with ML450 to complete repairs.

Epoxy Mixer Cups

**Features**
- Convenient pre-measured epoxy mixer cups. No mess, no guess, no waste.
- Ideal for bonding glass, hard plastics, rubber and metal.
- Bonds in 5-15 minutes.
- Grey adhesive has excellent chemical resistance.
- Fills porosities and can be used to build up worn parts.

**Applications**
- Loose trim, broken grilles, loose door glass channels and casting cracks and holes.

10.14 SPRAYERS & CONTAINERS

Standard Trigger Sprayer

**Features**
- Ergonomic design and extra-long trigger provides unsurpassed comfort.
- 1.3 ml per stroke, 30-40% greater than standard trigger sprayers.
- Extra large spray pattern.
- Unique internal piston design provides better chemical resistance.
- Works well with most common janitorial chemicals, including D-limonene products.

Hazmat Meltblown Universal Spill Pads

- Constructed with 2 plies of polypropylene—spunbond/meltblown, bonded–Hazmat pads share the same features as our dimpled meltblown pads plus an extra layer of spunbond polypropylene that is bonded to the top to make the pads low-linting on one side and highly absorbent on the opposite side.
- The lint-free top sheet side can be used to clean and wipe tanks, tools, walls, etc. without leaving a mess, but you also can use the meltblown side for quick absorption of fluids.
- Bright yellow color plus caution text and icon for high visibility and better shop safety.
- Absorbs 30 gallons.
- 15” x 19”.
- 200/bale.
